H.Con.Res. 290—FY 2001 Budget Resolution

Floor Situation: The House will consider H.Con.Res. 290 as its only order of business today. Yesterday, the Rules Committee granted a structured rule that provides three hours of general debate, equally divided between the chairman and ranking member of the Budget Committee, as well as one hour of "Humphrey-Hawkins" debate on economic goals and policies, equally divided between Mr. Saxton and Mr. Stark. It waives House rules requiring that committee reports be available for three days before consideration. In addition, the rule makes in order a committee amendment in the nature of a substitute as base text (with changes reflected below) and makes in order five substitute amendments, each debatable for 40 minutes and in the order listed below.

The rule waives all points of order against the resolution and substitute amendments. It stipulates that adoption of any of the substitutes will conclude consideration of H.Con.Res. 290 for amendment. In addition, the rule provides 10 minutes of general debate, equally divided between the chairman and ranking member of the Budget Committee, after the House completes considering amendments. The rule allows the Budget Committee chairman to offer amendments to achieve mathematical consistency. Finally, the rule states that House rules regarding the establishment of the statutory limit on the public debt do not apply to the adoption of the FY 2001 budget resolution.

Summary: H.Con.Res. 290 establishes a blueprint for the congressional budget for FY 2001 and sets budget levels for FYs 2002-2005. The resolution proposes \$596.5 billion in total discretionary spending for FY 2001 (approximately \$10 billion more than in FY 2000 and about half the rate of inflation). In addition, it calls for a minimum of \$150 billion in tax relief over five years, including eliminating the marriage penalty, providing small business tax relief, and phasing out the federal estate tax. The measure also accommodates tax relief associated with the patients' rights bill and tax incentives for education assistance.

The measure devotes the entire Social Security surplus—\$166 billion in FY 2001—to a "lock box" to prevent Social Security surpluses from being used to finance other government programs. It also calls for an additional reserve fund of \$60 billion for FYs 2001-2005 that may be used for tax relief or debt reduction. The resolution stipulates that if a portion of FY 2001 tax relief is vetoed, the money must be allocated toward debt reduction, not additional spending—in effect creating a debt reduction "lock box." In addition, the measure proposes a \$40 billion reserve fund (FYs 2001-2005) for reforming Medicare and providing prescription drug coverage for Medicare beneficiaries. The resolution also sets aside \$6 billion in FY 2000 and \$8.4 billion in FYs 2001-2005 for income assistance to farmers.

Specifically, the resolution calls for:

- * an increase in total spending for national defense to \$306.3 billion in budget authority (BA) and \$297.6 billion in outlays in FY 2001;
- * an increase in education, training, and employment services spending to \$72.6 billion in BA and \$69.2 billion in outlays in FY 2001;
- * an increase in spending for Medicare to \$215.7 billion in BA and \$216 billion in outlays in FY 2001;
- * a decrease in spending in international affairs to \$19.5 billion in BA and \$17.3 billion in outlays in FY 2001;
- * an increase in transportation-related spending to \$59.2 billion in BA and \$50.3 billion in outlays in FY 2001; and
- * a total of \$422.8 billion in BA and \$422.7 billion in outlays for Social Security in FY 2001.

As specified above, the rule makes in order a committee amendment in the nature of a substitute that makes several changes to the base resolution. Specifically, it (1) adds \$500 million in general science, space, and technology budget authority, for a new total of \$20.3 billion for FY 2001; (2) adds roughly \$3 billion to on-budget Social Security budget authority and outlays, for a new total of \$13.1 billion and \$13 billion, respectively; (3) reduces the committee-passed resolution's additional tax relief and debt reduction reserve fund from \$60 billion to \$50 billion; and (4) expresses the sense of Congress that the president should take immediate steps to reduce waste, fraud, and abuse within the federal government.

The resolution was introduced by Mr. Kasich and was reported by the Budget Committee by a vote of 23-18 on Wednesday, March 15, 2000.

Views: The Republican leadership strongly leadership supports passage of the resolution. An official Clinton Administration was unavailable at press time. Unofficially, however, several administration officials have urged members to oppose it.

Amendments: As stated above, the rule makes in order five substitute amendments, each debatable for 40 minutes and in the order listed.

— The "Blue Dog" Substitute —

Mr. Stenholm will offer an amendment in the nature of a substitute that:

- * recommends a total of \$605.9 billion in discretionary budget authority for FY 2001, \$9.4 billion more than H.Con.Res. 290:
- * recommends \$2 billion more than the Kasich budget in national defense budget authority and \$1 billion more in national defense outlays;
- * recommends approximately \$1 billion more than H.Con.Res. 290 in both veterans' benefits and services budget authority and outlays;
- * calls for devoting approximately 50 percent of the FY 2001 on-budget surplus (\$8.2 billion, as recommended by this substitute) to debt-reduction;
